# COMMERCIAL SPACE DESIGN

Use simple elements to produce high-level performance simulation for exhibition space.

On stage site, two sides are boards with highlighting to attract audiences attention. Huge LEDs at the background of the stage for presentation materials.

At the front of the stage sits the light machine and besides with trusses as well as working tables.

Gicco studio is a space designed for exhibition with front desk and discussion area.

The whole area is surrounded by soundproofed panels to create more quiet space for customers and staffs.

Furthermore, three hanging lights are adjustable for lighting area for additional decoration on panels.

The discussion area with four comfortable seats and clear-glass round table creating a cohesive atmosphere.

To make space more beautiful and attractive, the front desk area with studio's brand panel on it designed in an arc angle.
